

Ultimate Structured Water Units

Are truly the first maintenance free water conditioning technology to effectively utilize nature's own methods of producing cleaner, healthier, softer, better tasting water without costly chemicals, filters, salts, or electricity. Our units are guaranteed to save water, cut maintenance costs and will last forever.

Specially tuned geometry creates an energy environment for water to structure itself causing lower surface tension for better cellular hydration, dramatically improved bio-availability of nutrients and a more balanced pH.

This geometric technology breaks up large, low energy water molecule clusters into smaller, high energy clusters. Testing has shown upwards of 80% higher Photon energy emissions (which increases the energy transfer potential across cellular DNA/RNA) enhancing cell vibration, as well as improved cell division/mitosis for healthier growth and development of all living things.

- Increases absorption of medications, vitamins, & minerals
- Refreshing showers & bath
- Cut flowers last longer

Productive Solutions

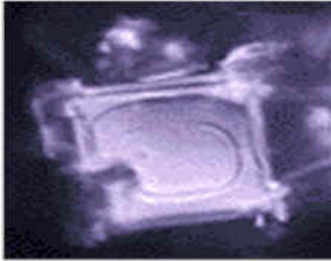

- Vigorous plant growth using 30% to 50% less water.
- 27% to 40% growth increase of crops, garden and bio-mass
- Greener lawns using less fertilizer
- Improves the ability of plants to withstand lower freezing temperatures and better heat resistance
- Increased aquaculture stability
- Less algae growth in ponds, lakes
- Cleaner healthier fish tanks
- Reduces anaerobic bacteria while greatly improving aerobic bacterial activity including septic & sewage
- Healthier livestock, poultry & pets

Structured Water Technology is a priceless benefit to any home or family and a solid step toward a healthy, happier lifestyle while insuring a cleaner environment. These systems pay for themselves quickly and will continue to save you money and improve your health forever.

*Most Tap Water
Is unstructured,
lifeless and of such
low energy it is not
effectively utilized
by plants or our
bodies.*

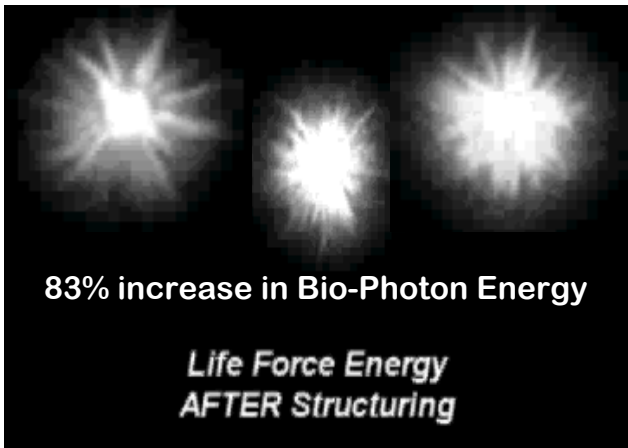

*Distilled water is
lacking minerals,
Electrolytes and
carries very little
Free Oxygen and
is also very low in
Essential Life Energy as are most bottled,
filtered or purified water sources.*
